WORK EXPERIENCE

Terra AI
Learning and Development Specialist

Singapore (Remote)
Jul 2025 – Jul 2026

- Delivered 5 end-to-end programs and 25+ live sessions to 150+ participants, from small-group Zoom workshops to a publicly livestreamed YouTube event: Chatbot for Business, Chatbot for Education, Smojothon, Career Talk, Train the Trainers.
- Designed and led a 2-week Train the Trainers program for 6 university lecturers: 4 workshop sessions plus 4 consultation sessions, backed by weekly live consultations and daily support between sessions.
- Owned the full curriculum lifecycle for 3 GenAI training modules across business, education, and product management tracks, from needs breakdown and outlining to asset development and live delivery.
- Cut B2B prospect research time by 96% (300+ hours to ~11) by leading the AI side of a 9-agent Python pipeline for the parent company's lead-generation pivot, processing ~3,000 contacts across ~600 companies into ~500 qualified leads.

Terra AI
AI Training Specialist

Singapore (Remote)
Feb 2024 – Jun 2025

- Trained 100+ students and professionals on generative AI, prompt engineering, and chatbot development, delivering customized curriculum for partners ranging from startups to multinational companies.
- Designed a learner progress dashboard mapping each participant's chatbot-development milestones, giving learners self-service visibility and mentors a shared view of cohort status.
- Held 9.0/10 average satisfaction across all cohorts through structured feedback loops, real-time curriculum iteration, and responsive learner support.
- Applied a 20% instruction / 80% practice model with project-based assessments across all cohorts.
